1. Recap from Previous Meeting (Brent)
 - ELL is sourced from many agencies i.e.: City, Partner with City, Autonomous from City
 - The source is dynamic. i.e.: Autonomous may partner with City; City may spinoff program to partner and vice versa.
 - City's Planning efforts – especially land use planning - can impact properties owned by Autonomous ELL providers in the City.
 - With limited City resources, expanding access to Partners and Autonomous sources will increase availability to ELL.
 2. Today's Questions (Brent)
 3. Equity/Inclusiveness in ELL (Brent, Creighton, and Jen)
